Subject: RE: [ORDWeb DD New Work Request #570] FW: Recycled Rubber Infill Producers

Kelly,
I am aware of that, this situation is a bit different which Monica helped to clarify.
thanks

Keep in mind we cannot assign work to an individual contractor. We put in a ticket and SRA decides who works on it.

Thanks,
Kelley H. Marshall

Thanks Monica that helps. Going forward for general updates have Carmeil do the work. In this case Dave had to since he know how to set up gov delivery.

The tire crumb site is an IOAA webpage and should be charged to the IOAA DD TDD, not NCCT.

Hi Jen and Monica,

Is this being tracked so the work that David is doing is being charged to Monica's Tdd?

Please create a GovDelivery group for people to sign up to receive information about EPA's Tire Crumb study. Then add a link on the EPA tire crumb website under related links. The tire crumb website is <https://www.epa.gov/chemical-research/federal-research-recycled-tire-crumbs-used-playing-fields>.

We can do that. Let me ask our web people to add it.

Monica

Here's a question: is there a way to set up our outreach like California's? They have a link on their website for people to join, so that interested parties will get automatic updates and then they can get the info. on their own. Is this possible? It might be easier for you.

Subject: FW: Recycled Rubber Infill Producers

Hi Monica,

These are the major recycled rubber infill producers whose product is used in fields and playgrounds, according to the industry, with the appropriate contacts.

Ex. 3 [CERCLA section 104(e)(7)(42 USC 9604(e)(7))]

You might just want to focus on these companies instead of the large list, which we pulled from a directory of all scrap tire recyclers.
